

PUNARJAGRAN SAMITI (NGO)

(Come together and think differently)

(Non Government Organization)

Ref. No. : PJS|372|2024-25

Date : 05TH Feb 2025

To,
The Concerned Officer,
SANKALP
New Delhi

Subject: Regarding the impact of distribution of food in Bal Sanskar Kendras on children.

Respected Sir/Madam,

Punarjagran Samiti is a social organization working continuously for the upliftment of the deprived sections of the society, which is actively contributing in the promotion of education, skill development, health and sanskar's. Bal Sanskar Kendra of Punarjagran Samiti is a school in which we teach children from different places of the country, whose parents are unable to educate them. These are the children who live in poor settlements, roam on the streets, beg or who do not have any means of proper education. We gather all these children and explain to them the importance of education, show them the way of living and motivate them to move forward in the society with a positive attitude. At present, Sankalp is providing food to 150 children two days a week in some Bal Sanskar Kendra's of Punarjagran Samiti. This initiative has brought about positive changes in the lives of children:

Increase in the number of children: More children are coming to the centres regularly due to the availability of food. This is improving their education.

Regular attendance: Earlier many children used to come to the centres irregularly, but after getting food they have become regular. This has improved their ability to study and learn.

Help to children without mothers: Especially those children who do not have a mother are also getting nutritious food two days a week. This has had a positive impact on their health and mental state.

PUNARJAGRAN SAMITI (NGO)

Ref. No. :

Date :

Physical and mental development: Due to balanced diet, children are growing physically, their immunity is increasing and they are feeling more energetic.

Concentration and academic improvement: Due to getting nutritious food, children's concentration has increased and they are studying with more interest and attention.

Relief to parents: This facility is proving to be a big relief for many parents, who are financially weak. This is allowing them to focus on other needs of their children.

Punarjagran Samiti is continuously working in the field of child education and nutrition and is trying to make the positive results achieved from this initiative more effective.

The real strength of any society lies in its children. Only when they are educated, healthy and cultured, it will be possible to build a bright future.

Yours Sincerely

Babulal Singh
